# The Saucy Part

As a seafood expert, we know what will add more oomph to your meal. That's why we specially created a range of sensational sauces - from Spicy Seafood Dip to Cajun Honey Mustard and Smoky Chipotle.

A must-try is our unique Garlic Herb sauce. Made from fresh, fragrant herbs, it is The Manhattan FISH MARKET's signature sauce!

Also check out these delicious new sauces - Volcano sauce, our special House Dressing and Murray Curry sauce, among others.

## 5 FIN-TASTIC COOKING METHODS

Our signature cooking style will have you all fired up. Just sit back and enjoy the show as we flame our seafood to bring out the caramelized sweetness.

Have all the fun of a summer barbecue in one dish and let the grilling seal in the rich taste of your seafood.

Poaching preserves the moisture and flavor, treating you to a wholesome meal.

Baking with fresh herbs intensifies the flavors, so every mouthful is a sensation.

Hand-battered and fried to perfection, making the seafood crunchy on the outside and juicy inside.

## EAT YOUR WAY TO GOODNESS

We use ingredients like cranberries and roasted sunflower seeds specially chosen for their antioxidant properties; fresh herbs such as rosemary for improving digestion as well as coriander leaves, which helps in reducing cholesterol! So not only do we satisfy your taste buds, we're here to help you eat right.

## VARIETY OF Seafood

From lobster and scallop to nile perch, we offer a wide array of seafood options. And we're always on the lookout for the freshest catch of the season.
